

JETHRO MOSES SALA

Junior Web Developer | Computer Engineer

Dumaguete City, Negros Oriental, Philippines | 0935 665 0847 | jethrosala9@gmail.com

PROFESSIONAL SUMMARY

Computer Engineering graduate with hands-on experience developing web, mobile, and desktop applications. Proficient in HTML, CSS, JavaScript, TypeScript, React, Python, and Git. Experienced in debugging, testing, troubleshooting, implementing user interfaces from designs, integrating application features with backend services, and maintaining software applications. Strong analytical and problem-solving skills with the ability to learn new technologies quickly and collaborate effectively in development environments.

TECHNICAL SKILLS

Web Development: HTML5, CSS3, JavaScript, TypeScript, React, Responsive Web Design, REST API Integration

Development Tools: Git, GitHub, Visual Studio Code, Chrome DevTools / Chrome Inspector, Figma

Testing & Debugging: Frontend Debugging, Application Testing, Browser Developer Tools, Software Troubleshooting, Error Diagnosis, Bug Fixing

SELECTED SOFTWARE DEVELOPMENT PROJECTS

Aqua Nature Water Refilling Management Application | *React Native, TypeScript, Supabase*

- Developed a mobile business management application for managing customers, deliveries, delivery units, transactions, and sales information.
- Designed reusable user interface components and role-based workflows for managers and delivery personnel.
- Integrated application features with a cloud backend and database, including CRUD operations for customer, transaction, and delivery records.
- Debugged application behavior and resolved UI, navigation, data-handling, and workflow issues based on client requirements.

TECHNICAL EXPERIENCE

Technical Support / Engineering Intern - CORTECH

- Assisted with computer hardware, software, network, and system configuration at client locations.
- Performed troubleshooting and diagnosed hardware, software, and connectivity problems.
- Supported installation, deployment, configuration, and testing of computer systems while following technical procedures.
- Collaborated with team members during client-site deployments and technical support activities.

EDUCATION

Bachelor of Science in Computer Engineering - Asian College, Dumaguete Campus | 2022-2026

Relevant areas: Programming, Web Development, Database Systems, Computer Networks, Software Development, Embedded Systems, Computer Hardware, System Troubleshooting.
